

PERMITTING & REGULATORY COMPLIANCE SERVICES

InterAct offers comprehensive environmental and regulatory services in support of oil and gas, utility, mining, industrial, municipal facilities and natural resource management. Our regulatory staff is dedicated to providing high-quality, timely, and cost-effective service. We help our clients achieve their project goals in the most strictly regulated environments, assisting with permit acquisition, environmental review, and regulatory compliance program development.

By working as the permitting agent or in support of our clients' regulatory staff, InterAct has earned the trust of agency representatives – an essential component for project success. Using a mutually beneficial approach, InterAct can minimize permitting review times for complex projects and successfully negotiate reasonable mitigation measures that meet the goals of environmental protection.

InterAct's Regulatory Permitting Services
